REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

1. Claim 5 has been canceled. Claim 6 has been added. Claims 1-4,6 are pending.
2. The rejection of claims 1-4 under 35 USC 112, 2nd paragraph is dropped as the claims have been amended.
3. The rejection of claims 4,5 under 35 USC 102(b) has been dropped as the claims have been amended and/or canceled thereby creating a clear demarcation over the art.
4. Acetylcholinesterase (AChE) inhibitors are known and used as therapeutic agents of dementia by enhancing cognition. See specification @ page 2 lines 11-20 that lists several AChE agents currently in use. See Ringman, Metrifonate: update on a new antidementia agent, PMID: 10584768; Doody, Clinical benefits of a new piperidine-class AChE inhibitor, PMID: 10332937. Thus the skilled artisan is aware of the nexus between AChE inhibitors and enhancing cognition.
The data in the specification is noted. Experiment 2 @ page 13 demonstrate compound 3 of the invention and decursin have AChE inhibitory activity. Thus, the skilled artisan knowing AChE inhibitors enhance cognition would expect the claimed compounds which exhibit AChE inhibitory activity to enhance cognition.
5. The prior art neither teaches nor suggests the claimed compounds. In the absence of any evidence or apparent reason why the claimed compounds do not possess the disclosed utility, the allegation of utility in the specification must be accepted as correct. In re Kamal et al, 158 USPQ 320; Ex parte Krenzer, 199 USPQ 227.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
